Your Search For The RIGHT Truck Ends Here

International Trucks are the best choice for the trucking industry. They are built to last, and they are built to work. They are built to give you the most out of every dollar you spend.

It's hard to get a good job in the trucking business, but it's even harder to get a good truck. That's why you need the International truck. The 26 International truck models come in a total of 70 different body styles. Carrying capacity ranges from 1/2 ton to 10 tons. In one line of trucks, the needs of the trucking world are met completely.

Each year increasing numbers of truck operators realize that this complete line holds the best solu-

tion to their hauling problems. Truck operators compare the real value that International has to offer. They are able to build into every truck that leaves the name. More than thirty years of perfecting all truck construction means a great deal to every International owner.

Drop in at any International branch or dealer and inspect the trucks designed to do your work. Or phone for a demonstration that will point the way to new profit in your business.

In the Editor's Confidence

YEARS AGO, in Montreal, most newspaper men had coffee. I used to be seen going to a little Italian deli to get some coffee. In those days a \$1.00 coffee was a \$1.00 coffee.

At night, I bring around the cups and glasses, and the coffee is served. I bring around the cups and glasses, and the coffee is served.

One day I was in a room of friends about coffee. There was a lot of coffee. One day I was in a room of friends about coffee. There was a lot of coffee.

MORTON OF 14... It's a long way on Beach to most of Baffin Land but this ship didn't have an anchor in an unexplored geographical area and with long life was the last which was to spend the winter of 1900-1901.

"YES SIR, I'LL DO THE WHOLE JOB" ... It's the smiling chap in the Imperial, well for

speaking. Here talking about that Spring change-over job every motorist has to have done sometime, somewhere. New clean, Summer oil and grease for old, this, dirty Wynn stuff. Have you had YOUR car put in tune with Sordas, yet?

Driving Safely in CROWDED TRAFFIC

[This is the fifth of a series of magazine articles on everyday safety, prepared by General Motors in the hope that these facts will bring you first a useful experience.]

THINGS can happen, either in a crowded street or on a highway, and we drivers have to be ready for them. So, as we drive, let's look at the things we can do with every precaution, every safety, every one . . . under circumstances.

Expert drivers tell us that one of the best things to keep in heavy traffic is a sense of safety. They point out that we don't have to drive right up ahead because in heavy traffic like this, if we do, the chances are we can't stop as quickly as we may need to . . . if we suddenly stop, drive on, or make a turn. If we do, we can't look a little, and take a little extra room, we won't have to worry about "cutting in and out" or having to get out of the way.

Now just as we need a safety margin about, we also need to make sure we're not in the way. For instance, when drivers tell us that when they want to turn or stop, they make it a rule to look in front of them before they turn or stop. If suddenly behind them there's a car, they'll have to be ready to stop. So they'll have to be ready to stop. So they'll have to be ready to stop.

We say all these things, but we know them as well as we can to get ourselves started. Because we can drive almost automatically, and hardly have to think about it, we're apt to go off driving along thinking of something else. There, all at once our eyes have an instant message that we're in the way, and when they try to get the message through, the lane is blocked.

So it doesn't pay to let us think about it. We should be thinking about it. As a matter of fact, it's not driving in heavy traffic that we can't see through. It's driving in heavy traffic that we can't see through. It's driving in heavy traffic that we can't see through.

Consistently the Leader...

If you look at the growing share of McLaughlin-Buick sales, you begin to get a clearer picture of the fine build that goes into the loyalty and effectiveness of Buick buyers.

Certainly, anyone would agree that when we see levels of the share in no time by 1936—so the new McLaughlin-Buick is doing today—that can be seen in the report.

The fact is, the report and performance of all Canada give us McLaughlin-Buick sales back to the very beginning of the car. If you go back, you'll find that the new McLaughlin-Buick is doing today—that can be seen in the report.

What is back of this fine record? In a very large measure, the answer is answered by the finest quality of build, and the fact that the new McLaughlin-Buick has come in the way.

But when you stop to think of the fact that this new Straight Eight and power as long and reliable as the new McLaughlin-Buick, you'll see the even more compelling "reason why" of this

achievement . . . is the literally phenomenal new performance that McLaughlin-Buick has brought to the market . . . in the present, especially balanced handling and . . . in the fact that the new McLaughlin-Buick is doing today—that can be seen in the report.

You'll find it in the most responsive, the light, rapid action and the extraordinary stopping of McLaughlin-Buick's new, patented Hydraulic Brakes.

You'll change all your old ideas about steering when you step on the gas and feel the smooth and silent surge of power delivered by the latest, most powerful V-8 in the world. Straight Eight engine . . . for giving comfort of its improved Klean-Stream air . . . the new of its Great Control steering.

You'll experience a fast glow of pride when you step back and survey the superb and beautiful Buick Body beauty of the new-year car.

For years it will be, if you choose an auto proved by consistent, overwhelming leadership in the line on the field.

New.. THIS CENTIPEDE TREAD

DOMINION ROYAL MASTER — Chevrolet's first De-Studded tire — today brings to car owners a new era of safer driving. Its patented Centipede Tread, with hundreds of gripping "rubber fingers", effectively stays both side skids and forward skids.

Almost overnight, the new Royal Master Centipede Grip tire has become a constant-wide emotion. Its great in the demand for this new Super Safety tire that factories in Canada and the United States are working day and night to fill the orders.

We urge you to test the new Dominion Royal Master. You will get positive, convincing proof that the Centipede Tread stops skidding — even under the worst road and weather conditions. You will marvel at how the skid-proof, multiple groove construction ensures a braking, silent ride — and permits finger tip steering. And you can see for yourself that the modern design adds comfort to the drive beauty of the latest cars.

FLOWING, SILENT RIDE

SETS NEW MILEAGE RECORDS

Tire vibrations (directly amplified) as recorded on a precision machine show how the new Royal Master miles extra—less than longer profiling ribs and V-bubbles.

Save the 10% extra mileage — and the greater flexibility of the Centipede Tread. (Note: Always consult your dealer. Properly inflated tires make much greater and still longer. And the exclusive self-cleaning grooves keep the road cutting clean.)

Stops SIDE SKIDS

The sharp, skew-cut edges of the new Centipede Tread stop slippery pavement positively dry with a skid-proof-viper-blade action. As a result, the new Dominion Royal Master Tire enables you to make fast, straight-line stops — with standing freedom from dangerous side skids.

Stops FORWARD SKIDS

The exclusive De-Studding grooves permit hundreds of flexible tread parts that bite through to firm, solid footing on wet surfaces. These multiple "rubber fingers" grip the road with new safety — and stop forward skids, often in half the distance required by other tires.

IT'S DE-SKIDDED
Hundreds of "rubber fingers" grip the wet pavement with each revolution of the wheel.

CANADIAN NICKEL in the Home

HOT WATER, CRYSTAL CLEAR FROM A MONEL METAL TANK

Hot Water is one of the greatest necessities and necessities of human life.

What a pleasure to turn on the tap and see the water running crystal clear, clean and sparkling—fit for your morning cup of hot water or baby's bath.

That is the kind of hot water that comes from a Monel Metal Tank. For Monel Metal, due to its wonderful physical qualities, is the ideal metal for holding hot water always clean and ready for any personal or household use.

Monel Metal is strong to steel, does not rust, corrosion and rust-causing, therefore it keeps water always clean and uncontaminated. It is cold metal with no placing to chip or wear and will last a lifetime.

Consider these outstanding qualities, Monel Metal is kept put in many useful services throughout the home and in hotels, restaurants and hospitals. In the really

modern kitchen, lending of pleasing luxury, it is used for making and holding hot water, because it is sanitary, easily cleaned and leaves a clean, shining surface. The water it holds is clean, sparkling and is perfectly adapted for every use. For mother dressing in the modern metal tub, it is as perfect as the plastic and like finish which holds its own as well as its work.

Whether you are looking or renovating, consider Monel Metal and its many useful services. Its cost is not high. Its service is satisfying and its beauty great.

And always remember that while in use throughout the world for hundreds of industrial and household purposes, Monel is a Canadian metal produced from ore mined at the Sudbury Nickel mines.

NATIONAL CHANGE WEEK MAY 4TH to 10TH

To rid your car
of motor "bugs"

Install a set of
**Champion
Plugs**

Champion National Change Week again reminds every motorist of the wisdom and economy of regularly replacing spark plugs . . . Champion Spark Plugs are effective in overcoming hard starting, sluggish acceleration, loss of speed and poor gasoline mileage, a few of the common motor "bugs". If your motor is afflicted with any of these common "bugs" you owe it to

yourself to take advantage of the special services offered you during National Change Week by your Champion dealer. Have him test and clean your spark plugs. Replace with Champions if necessary. Champions give you the all-round better engine performance demanded by the world's racing champions who have chosen Champion Spark Plugs for the past twelve years.

TO KEEP ENGINES YOUNG, TEST, CLEAN AND REPLACE SPARK PLUGS AT REGULAR INTERVALS

Your food, too, needs the Unfailing Protection of the Westinghouse Sealed-in Mechanism

Just as the hermetically-sealed container safeguards your canned goods from deterioration so the hermetically-sealed steel shell permanently protects the seal mechanism of your Westinghouse refrigerator.
